BRABUS Marine focuses upon luxury products for global markets with strong ambitions to become one of the world's most iconic boat brands.

BRABUS SHADOW THE INDIVIDUALIST'S RANGE OF YACHTS WITH AN AUTOMOTIVE BLOODLINE

Outstanding performance, power and superior acceleration, together with easy handling and best in class drivability, forms the core of a BRABUS Shadow product. On top of this, every BRABUS Shadow has an instantly recognizable design and strikingly gorgeous looks.

All boats within the range are painstakingly hand crafted to the highest possible standards by skilled technicians utilizing the finest materials, newest technologies and bespoke engineering. Revel in the excitement of getting back behind the wheel, feeling the power and enjoying the unrivalled thrill of these well-mannered, super-fast and easy-handling boats.

The BRABUS Shadow range is designed for a select group of boat owners who want to enjoy the very best exclusive boating experience for absolute individualism, ultimate luxury and seriously impressive power and performance.

Adopting the identical philosophy of BRABUS supercars, whereby a premium car, as the Mercedes-AMG range is utilised as a platform from which BRABUS build their supercars, we transform and redefine a selective range of Axopar boats into BRABUS Shadow superboats.

'1 OF 28' LIMITED EDITION BRABUS SHADOW 500 BLACK OPS

Following 40 years of history & heritage laid down by BRABUS, we always celebrate the launch of a new BRABUS Shadow model with a Limited-Edition 'collector's series'. All models are exclusively launched in the signature paint scheme Gunmetal Grey, combined with vibrant BRABUS Red exterior seating; a most striking combination for a Limited Edition.

The BRABUS Shadow 500 Black-Ops '1 of 28' is hand-built with focus on precision and finish. Fairing, painting and polishing the Limited-Edition version to the quality required is a highly labour-intensive, skilful and painstaking process, with no automation process,

which can take up to six weeks to reach the required finish.

Advanced design engineering and use of high-tech, selective materials incur a superior level and lengthier period of manufacturing. As a result, every owner of a new Shadow will experience a far higher, superior level of individual design and performance, uncommon for a boat in this size-range.
